- Hot temperatures will continue across much of the state through the week, with the hottest temperatures occurring on Monday in many locations
 - Daytime high temperatures through the week will range from 95 to 105°F across much of the Central Valley, and 105-115°F (locally hotter) across the southern deserts
 - Moderate to locally high heat risk impacts are expected
 - A slight cooldown is possible mid-to-late week
- Fire weather conditions will remain locally elevated for many mountain and foothill locations each afternoon the weekend and into much of next week due to breezy winds, heat, and ondoing dry conditions
 - Widespread critical fire weather conditions are not expected over the next 7 days
- Dry weather is forecast statewide through the beginning of the week, with some increase in monsoon showers and thunderstorms possible across the Sierra and portions of southern California by mid-to-late week
- Minor coastal flooding is possible in the most prone locations of the northern and central shoreline through Friday, July 15 due to King Tides
